

## **COVID-19 QUARANTINE & ISOLATION PROTOCOL**

**QUARANTINE:** Anyone who has been exposed to a person who tested positive for COVID19 must quarantine for 5 days if non-vaccinated. All vaccinated individuals who have been exposed must show proof of a negative COVID test before returning to campus or campus activities.

An exposure is someone who has been within 6 feet of an individual who has tested positive for COVID-19.

**ISOLATION:** Anyone who tests positive for COVID-19 must isolate for 10 days regardless of vaccination status.

Students, staff or faculty in **quarantine** will need **1** negative COVID-19 test from a licensed health provider 3-5 days after exposure. Students, staff or faculty in **isolation** will need **2** negative COVID-19 tests from a licensed health provider taken 24 hours apart.

The negative COVID test will serve as a clearance letter for students, staff or faculty to return to campus and/or to class.

The Dean of Students will notify the Deans of Academic Affairs when a student will be absent from class for a defined period of time due to a positive COVID-19 test result.

If staff or faculty are impacted by the virus, HR and the campus president should be notified immediately for further guidance.
